

# Michigan MEDICATION SECTION MEDICATIONS (GENERAL)

Initial Date: 07/19/2023

Revised Date: Section: 9-9R

## **MEDICATIONS** (General)

A medication reference protocol (9-R series) is <u>only</u> applicable when used in conjunction with an MCA approved treatment protocol.

Medication Reference Protocols do not address licensure level, pre/post radio requirements, or other medications/procedures/assessments that may be required between initial dose and subsequent doses.

Medication Reference Protocols apply to the Michigan standardized EMS protocol suite Sections 1-10; therefore indications/contraindications are aligned with protocol restrictions (such as allowable age for administration) and may be more confining than the actual indications/contraindications of the medication.

### Age:

- 1. Adult: patient > 14 years of age (will appear as "Adult" in the 9R series without age explanation)
- 2. Pediatric: patient < 14 years of age (will appear as "Pediatric" in the 9R series without age explanation)
- 3. A medication with an age restrictions/considerations will be expressed as such in the 9R series.

#### Indications:

1. Indication(s) listed are in conjunction with protocols, there may be other uses for which EMS is not authorized to use a medication.

#### Contraindications:

1. Hypersensitivity to a medication is a contraindication to that medication. <u>This applies</u> to ALL medications and will not be restated on individual medication protocols.

## Order of Operation
